

Liberty AI Grid: Server Reservation

Overview

Liberty AI Grid is opening reservations for up to **50,000 AI-optimized server spots per client**. This opportunity provides guaranteed access to critical infrastructure in a market where vacancy rates are below 2% and wait times stretch 2–3 years.

Our pricing of **\$5,000/month per server** is set at a fraction of alternative options, while ensuring premium positioning and mission-critical reliability.

Why Reserve Now

- **Immediate Availability:** First facilities operational April/May 2026.
- **Modular Deployment:** Additional buildings brought online every 1–3 months.
- **Guaranteed Capacity:** Secure your spot before competitors lock up limited availability.
- **Low Commitment:** Non-binding reservation today, with a formal agreement and small deposit required 60 days prior to delivery.

Key Features

- High-capacity, redundant power infrastructure designed for uninterrupted workloads.
- Advanced cooling systems built for AI-intensive environments.
- 10 Gbps bandwidth per server, scalable with client requirements.
- Enterprise-grade security and compliance standards.
- Modular “superpod” design: resilient, scalable, no single point of failure.

Pricing

- \$5,000/month per server.
- Fixed rate for reservations secured before formal deployment.
- Substantial savings compared to market alternatives (\$20,000–30,000/month).

Reservation Terms

- Non-binding reservation; no financial obligation at this stage.
- 60 days prior to delivery, a simple formal agreement will be issued, requiring a small deposit to secure your allocation.
- Reservations available up to 50,000 servers per client.
- First-come, first-served basis.
